RE: RoHS, and REACH Compliance

Consumers of Precix o-rings and custom molded products:

Our compounds are **RoHS compliant** which therefore do not contain any of the substances banned under RoHS which are lead (Pb), mercury (Hg), cadmium (Cd), hexavalent chromium (CrVI), polybrominated biphenyls (PBB), polybrominated diphenyl ethers (PBDE), and four different phthalates (DEHP, BBP, BBP, DIBP).

In addition our compounds are also **REACH compliant** which therefore do not contain any items listed in the Candidate list of Substances of Very High Concern which is currently a total of 173 substances, last update 12th January 2017 for proposed substances.

Regards,

James Levasseur
