

CERTIFICATE OF QUALIFICATION

Issued by : SAE ITC,
 1 York Street,
 London W1U 6PA,
 United Kingdom

Cert No. : TSSC98
Issue : 5
Issue Date : Sep 2018
Page 1 of 1

Issued to : PRECIX
 744, Belleville Avenue
 New Bedford
 MA 02745-6010
 USA

This certificate records the satisfactory completion of qualification testing for parts stated below, in accordance with the requirements of the stated controlling Technical Specification. The manufacturer and the product standards, to which they are granted manufacturing approval, are defined on this certificate. A list of Qualified Manufacturers is published in specification TS200.

The Qualified Manufacturer is responsible for renewing the product qualification prior to expiry of this certificate. Please submit a completed QUAL FORM 4 (Application for Renewal of Product Certification) with supporting data to the Design Authority (SAE ITC Technical Standards Committee) for a decision. The TSC will review the qualification of each certificate at periods of not more than three years, and if considered necessary, arrange for re-qualification of the product.

The Manufacturer shall inform the SAE ITC TSC of any intended change to the manufacturing process of the product or changes to their Company details, as described on this certificate. This shall be in accordance with the requirements of TS201, by submission of a QUAL FORM 3 (Manufacturing Change Request).

Signed :

PP.

Ian Stevenson (Rolls-Royce)
 Chairman
 SAE ITC Technical Standards Committee

Qualification Details					Manufacturing Route		Certificate
