

MAKERS OF  ACUSHNET RUBBER  
O-RINGS • CUSTOM ELASTOMER SOLUTIONS

---

## *Precix<sup>®</sup> Product Profile*

# **E17434 (E34) UL Recognized EPDM Product for General Purpose Applications**

### ***General Information***

- Excellent Resistance to Water, Anti-Freeze & Brake Fluids
- Excellent Heat Resistance properties to 150° C
- Excellent Low Temperature properties to -55° C
- Low Compression Set
- Good Ozone and Weathering Resistance
- Can be molded into o-rings and custom shapes

### ***Applications***

- Renewable Energy Seals including Photovoltaic Systems
- Brake Systems
- Coolant Systems
- Environmental Seals
- Plumbing Systems

### ***Material***

- Black in Color
- 100% Virgin Materials
- Meets Specification M3DA710A26B35C32EA14F19
- Recognized by Underwriters Laboratory (UL<sup>®</sup>). Suitable for UL778 (60 C), UL1081 & UL1563 gasket applications.
